

ASHP RESIDENCY ACCREDITATION FEE SCHEDULE

Please note that annual accreditation fees are assessed from the date of ASHP's receipt of the application for accreditation. ASHP's billing is based on the **calendar** year (January – December). Thus, for example, a site whose application is received in April will be billed for three-fourths of the year, or if in June the site will be billed for one-half of the annual assessment rate. The only other assessed fee is the application fee, invoiced upon submission of the application (on-site survey expenses are included in the annual assessment -- there are no additional fees during the year of a program's on-site survey).

Note: The Annual Assessment Fee and Application Fee are subject to change yearly and are not refundable.

2024 application fee is \$1,500 and the annual fee is \$3,800

PGY1 Community Pharmacy Residency Programs are not subject to or included in the above fee schedule; however, the **application fee** is the same as above and an **annual fee** is assessed if a program applies in precandidate status.

Multiple-site Programs: when there are multiple residents in a program and they are home-based in separate sites, or if a residency is conducted at multiple sites (sites where residents spend greater than 25% of the program time), the other site(s) will be assessed one-half of the annual fee for one program -- **in addition to the base fee above.**

In instances where multiple site residencies that fall under the auspices of one corporate entity are spread across a wide geographical area, multiple site “groupings” will be limited to those programs that can be realistically reviewed during one typical two-day survey visit. Hence, programs that are managed by one corporate entity but are separated by distances requiring independent site surveys are considered to be separate residency programs and are **charged separately.**
